

Please do not allow an LPFM station to take over our local translator service for K-LOVE radio, currently heard in my area at 89.3. We are a remote mountain community and K-LOVE helps keep us in touch while providing a clean, safe listening environment for our family and the entire community. There are many who benefit from this safe listening, including a number of businesses who play the station in their workplaces without fear of offending workers or customers. I personally have not listened to any other station for several years, and would miss it terribly! Please don't let this happen! Thank you for your consideration.
